Summary of Budget passed by the Senate

On Friday April 20th the Senate Appropriations Committee passed out their version of the FY 2018 Budget. They differ from the House on a number of items, both in expenditures and policy. The Senate has an additional \$14 million in spending, but like the House, the Senate does not raise new revenues to make up the gaps or spending.

Additional revenues were available from some settlement funds and from moving payments to Medicaid to free up general funds. The bulk of the additional spending is paid for by moving the teachers retirement (of currently employed) into the Education fund, freeing up \$8 million in general fund dollars.

The Senate Appropriations Committee budget restores a cut made in the House budget to a program that provides motel vouchers for homeless people on cold nights; includes \$2.1 million for the state's mental health system; and asks the administration to find \$5 million in management savings across the government.

The Senate Budget also removes the section of the House budget that required the Agency of Human services to cut \$1.3 million in grants.

Summary of Budget as passed by House

The budget bill passed by the House closes an original gap of \$70 million, using some of the Governors proposed cuts and savings, making their own additional cuts, found savings, and revenues not currently being collected. The Committee also earmarked an additional \$2.5 million dollars more in cuts to come from AHS grant reductions - annualized (\$1.25 in FY 2018 beginning in January of 2018 and the full \$2.5 in FY19) and another \$1.5 in structural and/or programmatic cuts and savings across state government to be identified by the administration, and not the legislature. The House committee did not call for any new revenues to be raised.

Committees of Conference Schedules:

<http://legislature.vermont.gov/committee/meetings/2018#leg-committees>

The Legislative leadership is hoping to adjourn at the end of this week. There are some 11th hour moves to put some of the Governor's teachers health care negotiation proposal in the budget, and a promise to sustain any veto if that does not happen.

The Legislators will be spending a considerable amount of time on their respective Floors debating bills as the session winds down. Most committees do not have regular meetings scheduled, but may meet as necessary to finalize legislation being debated on the floor or have committee discussions.

Please review the Complete Weekly Calendar for times, witnesses, and details of all schedules committee.
